JULY 2026 RECEIPTS PACK

Budget Performance Tracker evidence summary

PUBLIC RECEIPTS PACK v1.1 | RECEIPTS CHECKED

What the official record shows

Overall: **Under Pressure**. Of eight selected central-government KPIs, **2 are On Track, 3 are on Watch and 3 are Under Pressure**. Primary Balance has the largest relative shortfall at 30.1% below its YTD baseline. Non-Tax Revenue is 27.4% below baseline, while Fiscal Balance is 8.2% more negative than its baseline. Tax Revenue and Total Revenue & Grants are on Watch. Compensation of Employees and Interest remain On Track.

July also shows improvement from June: Total Revenue & Grants and Capital Expenditure moved from Under Pressure to Watch, while the number of Under Pressure KPIs fell from five to three. The overall tracker nevertheless remains Under Pressure.

ON TRACK	WATCH	UNDER PRESSURE
2	3	3

Eight-KPI evidence table

KPI	YTD baseline J\$ mn	YTD actual J\$ mn	Variance	Status
Tax Revenue	350,419.058	329,104.030	6.1% below	Watch
Non-Tax Revenue	31,420.590	22,802.596	27.4% below	Under Pressure
Total Revenue & Grants	382,614.689	353,838.230	7.5% below	Watch
Primary Balance	32,100.086	22,442.730	30.1% below	Under Pressure
Fiscal Balance	-30,886.130	-33,428.596	8.2% more negative	Under Pressure
Compensation of Employees	174,675.550	174,343.410	0.2% below	On Track
Capital Expenditure	24,160.897	21,409.012	11.4% below	Watch
Interest	62,986.216	55,871.325	11.3% below	On Track

Source record

#	Source	Role
1	Ministry of Finance and the Public Service: Central Government Operations Table - July 2026 https://www.mof.gov.jm/wp-content/uploads/Copy-of-CGO-July-2026.xlsx	July YTD outturns and YTD comparison baselines.
2	Ministry of Finance and the Public Service: 2026-2027 Estimates of Expenditure https://www.mof.gov.jm/wp-content/uploads/2026-2027-Estimates-of-Expenditures.pdf	Annual appropriation context. YTD comparison values used in this pack come from the July CGO workbook.
3	JIF Budget Performance Tracker - July 2026 https://tracker.infocusja.com/?month=2026-07	Public tracker month view.

Method

JIF compares each KPI's July year-to-date actual with the July YTD baseline in the official CGO workbook. For revenue and balance measures, higher is better. For Compensation of Employees and Interest, lower is better. The standard Watch / Under Pressure bands are 3% / 8%, except Capital Expenditure, which uses the approved 10% / 20% shortfall bands.

This receipts pack is evidence for the JIF Budget Performance Tracker. It does not represent every ministry, programme, agency, public service, or measure of fiscal performance.

Caveats and limitations

#	Caveat
1	The assessment covers eight selected central-government KPIs only.
2	Statuses are JIF editorial classifications based on published MOFPS data and documented thresholds; they are not official MOFPS ratings.
3	July figures are year-to-date results and should not be interpreted as full-year outturns.
4	Fiscal Balance can cross zero; the directional calculation uses the absolute baseline in the denominator to preserve sign-aware comparison.
